

Pharmaceutical
Company

Solopharm

We care for people

ver. 6.2 from 01.10.2025

 SOLOPHARM

S

Solopharm mission and values

To create modern, high-quality and affordable pharmaceuticals to preserve people's health and quality of life

High-quality

We strive for the highest quality in all aspects of our work: production, management, partnership

Caring for people

People are the key value of the company: consumers, employees, partners, investors

Sustainability

Rational use of resources allows us to maintain affordable prices and provide the maximum number of people with a quality treatment

S

Solopharm
today

S

History of the company

2011 - 2013

- Liquid Plant foundation and construction

2014 - 2019

- Launch of the 1st stage. Production of the first batch of infusion solutions
- Launch of the 2nd stage. Production of ophthalmic and nasal products
- Launch of the 3rd stage of the plant — 10 new lines
- MDI aerosol line was launched

2020

- Start of construction of a new plant for solid dosage forms manufacturing

2021

- Launch of the biotechnological developments' laboratory and pilot scale site

- Launch of the 1st stage of the food supplements production (stick packs)

2022

- Launch of the solid dosage forms plant

2023

- Launch of the 4th stage of the liquid dosage form plant. Increasing the manufacturing facilities
- Launch of Matrix Wall — design and manufacture of clean rooms
- Launch of the 2nd stage of the food supplements plant (capsules)
- The groundbreaking of BioMix Plant — a plant for the production of biotechnology products

2024

- Launch of the ESS pharmaceutical warehouse
- Launch of the production line for dietary supplements in sachet packets
- Launch of a new plant for soft dosage forms manufacturing

2025

- Launch of the 2nd microbiological laboratory for quality control of solid dosage forms, soft dosage forms and dietary supplements plants
- Launch of the first site in Russia with two automated lines: for the crosslinking of hyaluronic acid and the bottling of drugs

Solopharm team

Is a team of professional and likeminded individuals who strives to create the best on the Russian market and can respond flexibly to global challenges

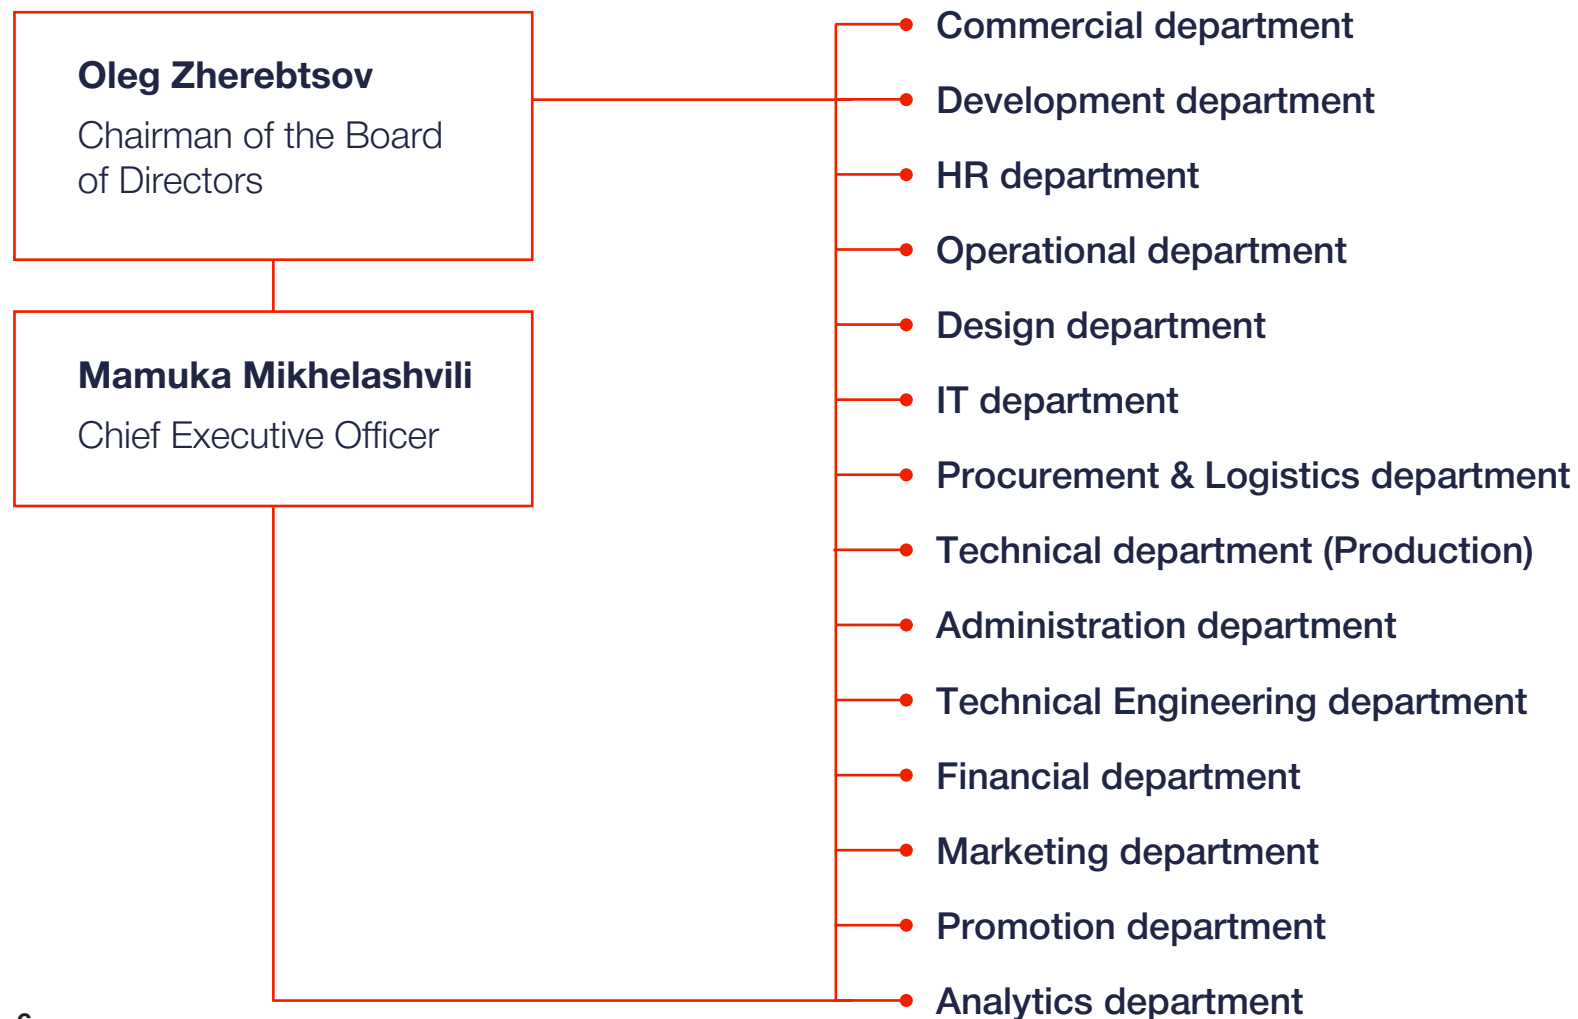

Ready to cooperate

Every year more than **150 people** complete an internship in our company. More than **40 corporate events** are conducted

S

General structure of the company

S

Solopharm partnership with the professional community

>

Professional interaction with medical community and pharmacy segment is aimed to increase the knowledge of specialists and final customers about the company and its products

Promotion teams:

- Ophthalmology
- ENT and therapy
- Rheumatology
- Cosmetology
- Neurology

> 250

regional staff

> 70

cities of presence

> 90 000

physicians and pharmacists receive up-to-date information about Solopharm products every year

3,14 MW

electrical power
of production

Innovative release forms and technologies

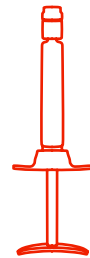

Help maintain the sterility of medicines, ensuring high quality and safety

Release forms

- BFS infusion bottles
- BFS injection ampoules
- CBP injection ampoules
- BFS unidoses
- metered drops and sprays
- multidose bottles
- OSD bottles
- BOV aerosols
- MDI aerosols
- pre-filled syringes
- etc.

Pre-filled syringes

Ready-to-use drug

Reinforced syringe stem and reinforced stop for comfortable use

BOV technology [Bag-On-Valve]

The drug is in a sealed bag inside an aerosol can

Sprays continuously and works at any angle

OSD bottle [Ophthalmic Squeeze Dispenser]

Two systems of air filtration

Guarantees sterility of the product without the use of preservatives even after opening

Innovative release forms and technologies

Preservative-free metered sprays

Unique nozzle
technology

Precise dosing
and wide geometry
of spraying

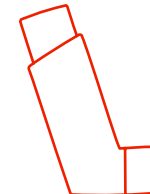

BFS technology [Blow-Fill-Seal]

Polymer
ampoules

Ease of storage
and transportation,
noninvasiveness
usage

MDI technology [Metered Dose Inhaler]

Metered aerosol
for inhalation

Rapid drug delivery to the
respiratory system organs

New products

Ophthalmic viscosurgical device

OXYMELLOSE

[Hydroxypropyl Methylcellulose 2%, 2.4%, 2.5%]

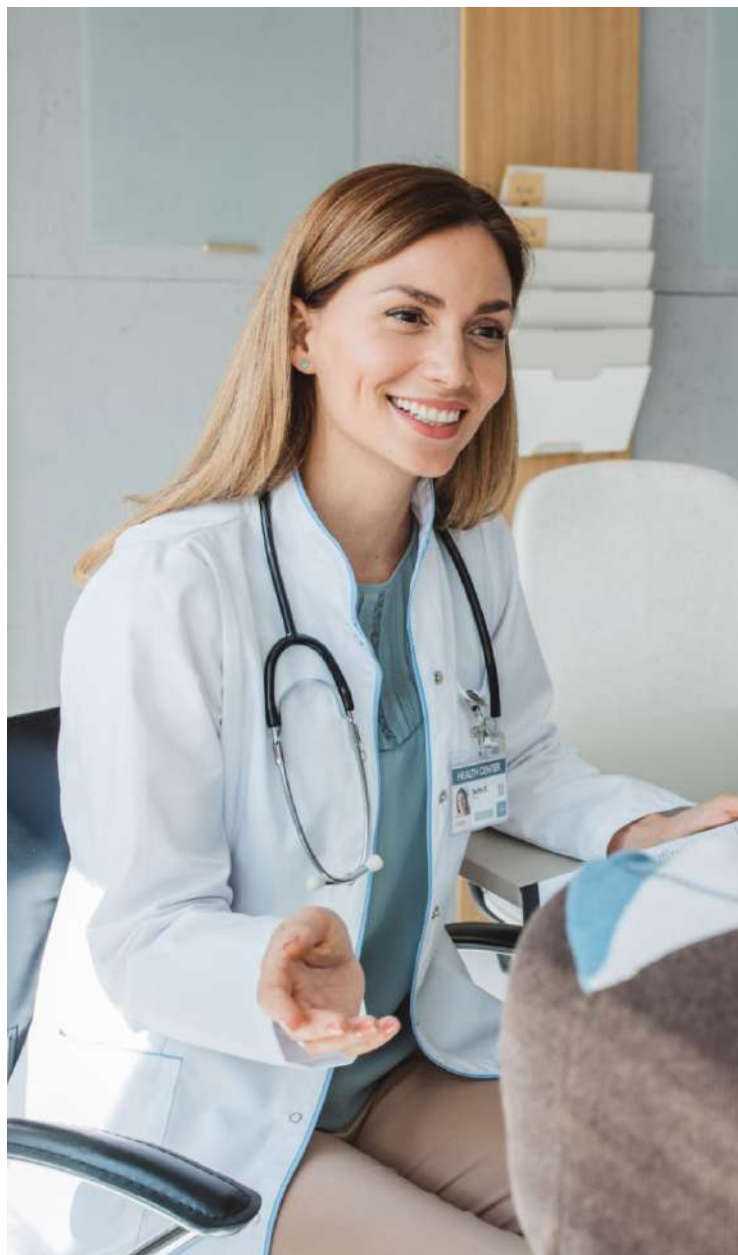

For use as a filler and tissue protector, as well as a lubricant in ophthalmic surgery¹:

- > In surgical interventions on the anterior segment of the eye
- > In intracapsular and extracapsular cataract extraction
- > In intraocular lens (IOL) implantation and corneal transplantation

1. Registration Certificate of Medical Device No. RZN 2025/25987 dated 30.07.2025

S

Mydriatic

STELFRIN GERTA

[phenylephrine 2.5%]

- > For the prevention of asthenopia and accommodation disorders under high visual strain
- > Improved composition: contains sodium hyaluronate¹
- > Vial volume for exactly one treatment course²

1. According to the instructions for medical use of Stelfrin gerta ЛП-№(003508)-(PF-RU)
2. Based on the calculation of instillations in both eyes to relieve accommodation spasm, considering the vial volume of 2.5 ml according to the instructions for medical use of the Stelfrin gerta ЛП-№(003508)-(PF-RU)

Solution for intravenous and subcutaneous administration

ALTUMVEN®

[Dalteparin sodium]

- > Treatment of acute deep vein thrombosis (DVT) and pulmonary embolism (PE)¹
- > Prevention of thromboembolism in surgical interventions¹
- > Unstable angina or non-ST elevation myocardial infarction (NSTEMI)¹ and others

1. Marketing Authorization No. LP-N=(010110)-(RG-RU), dated 13.05.2025

S

Non-steroidal anti-inflammatory medicine

ANGIDAK® INTENSIVE soon

[benzydamine 0.255 mg/dose,
octenidine 0.17 mg/dose,
phenoxyethanol 0.85 mg/dose]

- + > Treatment of pharyngitis, laryngitis, tonsillitis, gingivitis, glossitis, stomatitis, periodontal disease. Use after surgical interventions

Treatment of Nasal Congestion

XYLOKT® EXTRA soon

[ipratropium bromide 84 mcg/dose,
xylometazoline 70 mcg/dose]

- + > Symptomatic treatment of nasal mucosa edema and hyperemia
- > Acute respiratory diseases with rhinitis symptoms
- > Acute allergic rhinitis and sinusitis

SoloScience

New online project for young psychiatrists and neurologists

About the project

The online project for psychiatrists and neurologists based on Solopharm is designed as an educational and information platform for the exchange of experience of practicing or beginning their path of young doctors

Project goal

Creating a community of young psychiatrists and neurologists who will be able to gain new knowledge in their field and learn from the experience of our distinguished speakers

Two formats

> **Podcasts with speakers,** with opportunities to discuss relevant questions

> **Online webinars featuring** clinical case reviews

More information on the **SoloScience website** →

How SoloScience benefits doctors

1. Expands clinical thinking through solving non-standard practical cases linked to theoretical knowledge
2. Provides access to the most up-to-date information in psychiatry and psychoneurology
3. Offers opportunities to discuss relevant questions with opinion leaders in psychiatry and psychoneurology
